Hello, everyone!
This is Shedge here!
Recently, I've seen a surge of interest in Kemeko DX! and thought that was good for the series.

I've always loved the series since first watching the Anime, and was disappointed with the scanlations being slow, or rather, "dead".

So, I hope you all enjoy the series as much as I do, and live through my half-ass translations.

P.S. You can read the earlier parts of the series at Dynasty-Scans. I am continuing from where they left off.

Remember, you can buy the Tankouban Volumes from overseas from sites like YesAsia or Kinokuniya Bookstore!
